

## COURSE UNIT DESCRIPTION

Course unit title	Research field, branch, code	Faculty	Department, Institute
Historical grammar of the Slavic languages	Philology, Linguistics, H004	Philology	Institute for the Languages and Cultures of the Baltic

Study cycle	3 <sup>rd</sup> (doctoral)
-------------	----------------------------

Mode of delivery	ECTS credits	Type of the course unit	Language of instruction
Contact (lectures, workshops, tutorials)	8		Russian
Individual or in a group			

### Annotation of the course content

Classification of the Slavic languages. The Proto-Indo-European language. The Proto-Slavic language. Old Church Slavonic was the first Slavic literary language. The earliest information about the Slavs, their ancestral home and mythology. The East Slavic languages. The development of the East Slavic languages. Differentiation of the three Slavic languages (Russian, Ukrainian, Belarusian) and the current sociolinguistic situation. The West Slavic languages. The development of the West Slavic languages. The current sociolinguistic situation of the West Slavic languages. The Polish language. The Czech language. The Slovak language. The Lusatian languages. The South Slavic languages. The development of the South Slavic languages. The current sociolinguistic situation of the South Slavic languages. The Serbian language. The Croatian language. The Slovenian language. The Bulgarian language. The Macedonian language. The Slavic microlanguages.

Historical phonetics and morphology of the Slavic languages

Comparative and historical phonetics of the Slavic languages. The main processes of the Proto-Slavic period. Accentology of the Slavic languages. The development of the Slavic vocal system. The disappearance of long-short vowel oppositions. Monophthongization of diphthongs, formation of nasal vowels. The history of the reduced sounds in different Slavic groups. The development of the Slavic consonant system. Three palatalizations. Iotation processes. Simplification of the consonant system. The development of consonant combinations according to the Slavic groups. The development of the category of hardness-softness in a number of the Slavic languages.

Comparative and historical morphology of the Slavic languages. The basic morphological categories and their development. The development of the Slavic declension system by language. The development of declension of adjectives and pronouns. The appearance of numerals as a part of speech and their development in languages. The verb: the development of the system of tenses in different Slavic languages.

Elements of syntax: the structure of sentences, specific constructions (dative independent), the use of prepositions, etc.

Relationships with other Indo-European languages. Borrowings in the lexical system. The problem of the Balto-Slavic similarity (proto-language).
