

DOCTORAL DEGREE COURSE UNIT DESCRIPTION

Name of subject	Field of science code	Faculty / Center	Institute / Department
Methodology of Psychology Research	S 006	Philosophy	Institute of Psychology

Student's workload	Credits	Student's workload	Credits
Lectures		Consultations	3
Individual work	4	Seminars	2

<p>Course annotation</p> <p>The role of research in modern psychology. Applied and fundamental research methods. Research strategies: descriptive, correlative, experimental research. Research ethics. Data collection and data protection methods. Validity and reliability of chosen research instruments. Sample selection strategies and sample size of the study participants. Formation of control and comparison groups. Small sample size research in psychology. Epidemiological studies. Research on psychosocial interventions. Longitudinal studies. Systematic reviews and meta-analyzes of the scientific literature. Use of information technology in modern research. Modern methods of multidimensional statistical analysis of empirical data: structural equation modeling, analysis of latent classes, etc. Qualitative research methods. Publicity of research. Preparation of research data for publication. Publication standards and publication. Preparation of research projects. Funding of research projects, preparation of funding applications.</p> <p>32 hours are allocated for the subject for the classroom work (seminars).</p>
<p>Reading list</p> <p>American Psychological Association. (2020). Publication manual of the American Psychological Association: the official guide to APA style (7th ed.).
