

COURSE UNIT (MODULE) DESCRIPTION

Course unit (module) title	Code
Innovation	

Academic staff	Core academic unit(s)
Coordinating: lekt. Jaroslav Urbanovič	Business School, Saulėtekis av. 22, Vilnius
Other:	

Study cycle	Type of the course unit
First	Elective

Mode of delivery	Semester or period when it is delivered	Language of instruction
Blended	Spring (4th semester)	English

Requisites				
Prerequisites:	Co-requisites (if relevant):			

Number of ECTS credits allocated	('antact hours		Individual work	
5	130	50	80	

Purpose of the course unit

To develop students' abilities to create and manage innovations in a modern business environment, providing theoretical knowledge and practical skills in the areas of innovation identification, creation, evaluation, and implementation. The course focuses on the practical application of innovations, data analysis, and decision-making based on real company activities.

Learning outcomes of the course unit	Teaching and learning methods	Assessment methods		
Be able to critically analyze the organization's innovation potential based on its vision, mission, and strategy.	Interactive lectures, Case analysis, Practical assignments	Presentation of practical work, Case analysis with survey		
Be able to apply advanced data analysis methods for identifying and evaluating innovation opportunities.	Practical assignments, Data analysis practice, Problem-based learning	Heat map analysis, part of practical work		
Be able to generate and evaluate radical and incremental innovations in a business context.		Innovation portfolio, part of practical work		

Be able to prepare and present an	1 -	Final project presentation
innovative project with sound reasoning.	Expert consultations	
reasoning.		
Will be able to critically analyze the	Interactive lectures, Case analysis,	Presentation of practical
organization's innovation potential	Practical tasks	work, Case analysis with
