

COURSE (MODULE) DESCRIPTION

Course title	Code
Applied Macroeconomics	

Staff	Department
Coordinator: Nijolė Valinskytė Other(s): Dr Benjamin Ming Kit Hemingway, Dr Marius Jurgilas, Paulius Michalaukas, Mantas Vilniškis	Faculty of Economics and Business Administration

Study cycle	Course type
First (Bachelor's)	Compulsory

Form of implementation	Period of implementation	Language of instruction
Face-to-face and remote (depending on the situation)	Semester 5	English

Requirements for student	
Prerequisites: Mathematical Methods, Statistical Theory, Econometric Theory and Practice, Economic Principles II, Economic Theory II	Additional requirements (if any): -

Number of ECTS credits	Student's workload	Contact hours	Individual work
5	130	36	94

Purpose of the course and competences developed		
<p>This course aims to present and analyze contemporary problems and policy issues in the macro economy. It will build on the foundations laid in the first year's principles course and it will also develop more fully the theoretical and analytical approaches presented in the second year's economic theory course.</p> <p>This course provides (i) an introduction to some econometric methods which are broadly used in empirical macroeconomics, (ii) an introduction to macroeconomic models and related concepts that are relevant for analyzing macroeconomic policies.</p>		
Learning outcomes	Teaching methods	Assessment methods
1.1. Have acquired knowledge in macroeconomic analysis and is able to apply the methods discussed in classes to treat macroeconomic data.	Lectures, tutorials with empirical content through illustrations in EViews, R or STATA.	Written exam (50%) Four assignments (40%) In class participation (10%)
3.2; 4.2 Use and interpret mathematical models describing macroeconomic relations and present them in class.	Tutorials and assignments.	
2.1; 3.1 Critically evaluate macroeconomic policy, appreciate importance and limitations of macroeconomic theory to inform policy choices.	Lectures, tutorials, discussions.	
Course themes	Contact / Individual work: time and assignments	

	Lectures	Tutorials	Seminars	Practical classes	Laboratory work	Practice	Contact hours	Individual work	Assignments due date
Forecasting in Macroeconomics (by <i>Mantas Vilniškis and Paulius Michalaukas</i>)	6						6	16	Main readings: Francis X. Diebold (Ch. 2 and 5) Assignment 1
Fiscal policy and fiscal multipliers (by <i>Dr Marius Jurgilas</i>)	6						6	18	Main readings: Romer Ch. 12 Romer and Romer (2010) Assignment 2
Optimal monetary policy, the dynamic inconsistency of low-inflation monetary policy, empirical applications (by <i>Dr Marius Jurgilas</i>)	6						6	18	Main readings: Romer Ch. 11 and specified research articles Assignment 3
Central Bank Digital Currency (by <i>Dr Benjamin Ming Kit Hemingway</i>)	6						6	12	Main readings: Brunnermeier and Niepelt (2019), Niepelt (2020), Walsh, Ch.3 (No assignment)
Basic mechanism of financial crises, the role of housing (by <i>Nijolė Valinskytė</i>)	6						6	12	Main readings: Carlin and Soskice Ch. 3 and 6, Mian and Sufi (2009), Adelino et al (2016)
Overview of macroprudential policies, case studies and impact evaluation (by <i>Nijolė Valinskytė</i>)	4	2					6	18	Reading specified research articles Assignment 4
Total	34	2					36	94	

Assessment strategy	Share in %	Time of assessment	Assessment criteria
Written exam (180 minutes)	50	End of autumn semester	The final exam will consist of both longer open questions in which students have to show their analytical capabilities and of shorter questions simply testing students' knowledge. The final exam will test the material from the whole course. One question will be in the topic of Stroinovskis lectures.
Four assignments	40	Throughout the semester	Students will receive four homework assignments asking them analytical questions

			about the material covered in class and questions asking them to connect the studied material to the real world.
In class participation	10	In class	Active participation in class, contributing to the discussions, providing feedback and additional information based on the assigned reading.

Author	Published in	Title	Issue No. or Volume	Publishing house or Internet site
Required reading				
Slides as well as online resources will be made available to all students.
