Requirements for students							
Prerequisites: Additional requirements (if any):							
None None							

Course (module) volume in credits	Total student's workload	Contact hours	Self-study hours
5	130	32	98

Purpose of the course unit (module): programme competences to be developed

The purpose of this course is to provide students with knowledge on the topicalities of modern-day Russian Federation, its political and economic system, institutional structure and performance as well as domestic and international/foreign policy priorities. In addition, the course strives to equip students with skills and abilities for an independent analysis of the current economic and political developments in the Russian Federation.

This course aims to develop subject specific competences, such as the ability to understand and explain contemporary Russia, the peculiarities of its development, logic and specifics of political decision-making, the economic development model, as well as the ability to identify and explain the foreign policy goals and priorities of Russian Federation, ability to interpret post-soviet environment in a culture-sensitive manner; also, generic competences: ability to work and study individually and in groups, ability to present findings in a coherent manner, ability to respond promptly and comprehensively to questions raised by colleagues or professors.

Learning outcomes of the course unit (module)	Teaching and learning methods	Assessment methods
Will be able to understand and explain the peculiarities of the development of contemporary Russia, specifics of political decision-making, economic development model, policy goals and priorities	Face-to-face lectures, discussions	Assessment of work during seminars
Will be able to analyze foreign policy goals and priorities of the Russian Federation	Independent reading, exam	Assessment of exam
Will be able to interpret post-soviet environment	Research methods (texts analysis, preparation for presentation)	Assessment of presentation
