PROGRAMME DESCRIPTION

- **The objective**

The objective of the programme is to develop quality management specialists of a broad profile, who know and apply quality management principles and methods in various fields of activity, are able to recognize and analyse quality related problems, search for the ways to solve them, and implement sound solutions of quality improvement in the dynamic environment. The strengths of the programme are that it:

- Has the curriculum is in line with the curriculums of analogous programmes of Western universities;
- Is carried out by a cohesive team of teachers;
- Provides strong skills and deep knowledge;
- Has strong links with the business.

In 2015 [EDUNIVERSAL Global Ranking](#) ranked Quality Management programme in 8th place out of 200 top master's degree programmes in General Management in Eastern Europe! According to data of official surveys, more than 98 percent of programme students and graduates would recommend programme to others.

During the international accreditations conducted by The Centre for Quality Assessment in Higher Education in 2005 and 2013 Quality Management programme received positive evaluations and was accredited for maximum – 6 years.

- **Career opportunities**

A graduate of the programme will be qualified to work as a quality manager, quality auditor, process manager, Lean expert, EFQM assessor and expert of ISO and other standards, to work as a consultant, to continue studies on a doctoral level.

- **Access to further studies**

Vilnius University created opportunities for students interested in continuing their studies to proceed to doctoral studies, which are available in English language; also the best of our graduates might be employed at the Vilnius University.

KEY LEARNING OUTCOMES

Programme is designed to give knowledge and practical experience preparing students for the future work in quality management. Learning outcomes of the programme reflect EU Quality policy and are harmonized with EOQ (European Organization for Quality) competence requirements for quality management specialists.
