

Qualification requirements for scientists in the fields of natural sciences, medicine and health sciences, and technology (members of the council) participating in the defence of doctoral dissertations

Researchers in the fields of **natural sciences, medicine and health sciences, and technology** must meet the description of the minimum qualification requirements for the positions of researchers in the state institutions of science and study, approved by the Research Council of Lithuania on June 28, 2018 by the order of the chairman no. V-340, the requirements of paragraph 8.2:

“8.2. researchers may apply for the position of a senior researcher if they have published research results in at least 7 research articles in international scientific publications” (publications must be indexed and have an Impact Factor in the Clarivate Analytics Web of Science database (henceforth, international scientific publications, item 7.1)).
