

PUBLICATIONS AND DISSEMINATION:

- Vilnius University Press (VUL) is a leader in academic publishing not only in Lithuania, where it ranks among the top ten publishing houses (including commercial publishing houses) in terms of the number of titles it publishes, but also in the Baltics. VUL publishes around 50 titles of books and 40 volumes of scientific journals every year.
- The publisher's books are available in all Lithuanian academic bookstores and the largest online bookstores (patogupirkti.lt, knygos.lt, vaga.lt, humanitas.lt), while the English-language editions are sold on Amazon.co.uk and Amazon Kindle Store. Since 2021, all print and e-books published by VUL are available at online bookstore <https://www.knygynas.vu.lt>.

PARTNERSHIPS:

- VUL is a member of Crossref and submits metadata (including article reference lists) to Crossref, the world's largest open-access database of metadata for scientific information, and thus ensures the dissemination of the information to other databases using Crossref services.
- The publisher participates in international and national associations: Association of European University Presses (AEUP), Lithuanian Publishers Association (LLA), Lithuanian Academic Publishers Association (LALA), Association of Lithuanian Serials (LMPA).
- Books by VUL authors are presented at the Vilnius Book Fair and the world's largest book fairs in Frankfurt and London.

SCIENCE:

- VUL publications are sent to foreign libraries, and scientific journals are indexed in international databases: *Clarivate Analytics*, *Scopus*, *DOAJ (Directory of Open Access Journals)*, *EBSCO Information Services* and in many other more specialised ones, also scientific search engines *Google Scholar*, *China Academic Journals Full-text Database (CNKI)*.
- VUL uses the Open Journals System (<https://www.zurnalai.vu.lt>), the latest-generation, open-source platform for hosting and disseminating scientific journals, which is now fully compliant with the principles of open access, and publishes articles in PDF and HTML formats.
- VUL is listed as a Clarivate Web of Science publisher and its English-language books are indexed in this database.
- VUL also publishes the largest number of dissertations in Lithuania (about 150 dissertations per year).
- All books and scientific articles published by VUL are peer-reviewed. The publisher follows the guidelines published by the Committee on Publication Ethics: (COPE) and supports the principles of ethical publishing. The guidelines apply to editors, authors and reviewers of the publisher. When dealing with possible misconduct, the publisher follows the COPE structural schemes.
