International Relations Office

The background of the poster features a close-up of several Swiss Franc coins, including a 10 Franc coin and a 20 Franc coin, with intricate floral and architectural designs. A portion of the Swiss flag, with its characteristic red, white, green, and blue stripes, is visible in the upper left corner.

How Switzerland got rich

JULY 9 – 20, 2018

A large white cross symbol is positioned on the right side of the poster, partially overlapping the text 'Application is now open!' and the bottom section.

UZH International Summer Schools

Course Description

This summer school looks at the development of Switzerland into one of the richest and most globalized countries in the world. Find out how Switzerland became an international finance center, how some Swiss companies evolved into big transnational corporations and how they manage to export Swiss-made goods under the condition of a strong currency, the Swiss Franc. During these two weeks, you will discover the country's political roots and study its worldwide successful industries like watchmaking, pharmaceuticals, and food processing, through talking to leading experts. You will have the opportunity to travel to some of Switzerland's most scenic locations like Lucerne, Berne, and the lake of Geneva. You will visit Nestlé, the largest food company in the world, important historic sites and up-to-date museums. Participating in this summer school will not only allow you to get to know the University of Zurich but also experience Zurich as one of the world's most attractive student cities.
