Introduction of Universidad del Rosario

Universidad del Rosario, founded in 1653, is a top-three Colombian university, conceived, since its establishment, as a university of the students, by the students and for the students. It is also a place where the limits of knowledge are challenged by conducting high quality research connected to international standards curricula. Our unchanged mission looks essentially for educating young people to lead, based on critical thinking, strong ethical training and a high sense of responsibility.
