- Sharing experiences with national and international students since we are an university open to the world.
- This year the UR International Summer School has a diversity of topics within its academic offer, that you would really like.

## Designing public policies taking into account the migratory phenomena in cities:

Juntos construimos la  
#InternacionalizaciónParaTodos

This course seeks to explore how the cities can be affected by the migration flows from an interdisciplinary perspective that merge different areas of knowledge as political sciences, international relations, economy, sociology, and urban studies. This topic is relevant in the light of the Colombian panorama where the increase of Venezuelan migrants towards its cities will generate a structural change on urban transformation that implies numerous public policies, governmental actions, and the participation of social actors.
