

Meet the World VIA University College

VIA International Mobility

Looking forward to 2022!

Slowly approaching the start of a new year, we would like to take this opportunity to look ahead to 2022 and tell you about our summer school programme for the coming year. We hope you could be interested in joining us for 2022. Remember you are always very welcome to contact us at summerschool@via.dk, if you need more information.

A diverse course list for 2022

For 2022, VIA offers 5 summer school courses within a broad range of subjects. No matter if you are interested in Animation or Construction we have the course for you. Like last year you can join 2d TV-Animation and Deep Dive into Entrepreneurship as well as International Health: Welfare Technology and Dementia, Multi-Story Timber Constructions and the UN's 17 Sustainable Development Goals summer schools

The full course list is ready and the application system is now open.

[Find the full course list here!](#)

Summer School online info meetings

In January, we will host two online meetings about VIA's Summer School 2022 programme, where students and counsellors can learn more about the content of the 5 courses and plenty of time for Q&A.

- 20 January, 6 PM – [Sign up here!](#)
- 27 January, 9 AM – [Sign up here!](#)

Feel free to share the option with your students. If you would like to receive marketing materials to promote VIA Summer School students, please send an email to summerschool@via.dk with contact information and address.

Meet Quentin

Quentin Dutertre from France studies Civil Engineering at his home university and attended the Deep Dive into Entrepreneurship summer school.

Fee waivers for students from partner institutions

Students from partner institutions are eligible to receive fee waivers on select courses, if they can transfer the credits from VIA Summer School to their current study programme - contact us for more information on courses and terms.
