The Arqus Alumni Mentorship Programme is an online programme that connects **Arqus alumni**, regardless of their field of study or current profession, with **current students and recent graduates** to provide **mentorship, career guidance, and networking opportunities**.

The programme aims at supporting students in work-integrated learning and in transition to the world of work in transnational contexts.

WHAT IS THE STUDENT AGORA

The Arqus Student Agora aims at promoting student participation and enhancing student engagement at Alliance level, enhancing the students' Arqus experience through student-led creative projects, accelerating students' personal and professional development, enhancing Arqus student services.

Arqus Student Agora has a very unique feature. Each university forms a group of "student contributors" who meet and work with the team to design the student-centred programmes included in the Agora. The contribution does not stop at the moment of implementation, but rather goes beyond the process and implies the yearly monitoring and updates of the deliverables.
